

**Media Release**

**7 December 2011**

### **Hawksford partners with Jobstream**

Following an extensive market search, Hawksford, the award winning wealth structuring company, has chosen Jobstream to provide a full trust administration system with integrated workflow.

Hawksford was particularly impressed with the new Jobstream 9.2 software which incorporates Customer Lifecycle Management and Role-Based Interface functionality. In addition, the company saw the real benefit of "smart views", which provide a 24/7 snapshot of all vital information and client transactions.

Peter Murley, the CEO of Hawksford, explained:

"We really liked Jobstream's business awareness and their open, partnership approach. In their evaluation, the Jobstream team worked closely with all sections of our business to fully understand and address our needs. We are looking forward to Jobstream delivering greater efficiencies across our business. By having a fully integrated, straight-through process, we can maintain data integrity and deliver valuable time savings through the reduction of paper tasks."

The chief executive of Jobstream, John Brimacombe, noted:

"We are delighted to have won such a major and prestigious client. Our latest Jobstream 9.2 release continues our record of product innovation focussed on giving our clients competitive advantage. We are looking forward to a long term partnership with Hawksford, working with them across their very successful local and international business."

### **About Hawksford**

Hawksford is an award winning, leading independent wealth structuring company with the expertise, experience and resources to create and manage structures that withstand the challenges of today's demanding global environment.

The business focuses on larger and more complex situations, working closely with both private and commercial clients and their advisors to administer sophisticated, effective structures.

Hawksford believes the key to success is to form strong relationships, working closely with clients and their advisors to gain real insight into their requirements. The foundation for these relationships comes from employing the highest calibre and most experienced people, a commitment to finding solutions and the culture of working to world class standards of service.

The technical expertise and scale of Hawksford enables the business to handle large and complex structures, while its independence and exclusive focus on wealth structuring give it the flexibility and autonomy to do what is right for its clients.

Hawksford provides the following services:

Fiduciary
