Hawksford Group (and Hawksford International) are the Registered Business Names of Hawksford Trust Company Jersey Limited which is regulated by the Jersey Financial Services Commission.

Hawksford is driving to become the leading international specialist in the creation, management and governance of larger or more complex private client and corporate wealth management structures.

Hawksford can trace its roots back to late 19th century Jersey, when lawyer Cyril Hawksford first began practising. Since the 1970s, a dynamic and successful offshore trust business has evolved, which retains a firm focus on the company's traditional professional values. It is for this reason that the name Hawksford was selected following the management buyout from Rathbone Brothers Plc in October 2008.

The buyout has given Hawksford the independence, resource and motivation that are crucial to delivering the best service for its clients and their advisors. As an organisation with a global vision, this position also allows the business to develop its international reach, strengthening its worldwide facilities to respond to the growing demand for sophisticated, multi-jurisdiction, offshore structures.
